PERSONAL INTRODUCTION

I am Pietro Marrone, a Computer Engineer with a **Master's in Computer Networks and Cloud Computing**. I have a strong interest in IoT, cybersecurity, AI and cloud world. Driven by *curiosity, attention to detail, and a continuous desire to learn*, I am constantly expanding my skills and knowledge. Currently, I work at Reply Group, where I specialize in delivering innovative cloud solutions based on Google Cloud technology.

EXPERIENCE

Cloud & Network Engineer

PwC Italy

06/2025 – Ongoing

Torino, Italy

Cloud & DevOps Engineer

GO Reply

11/2024 – 05/2025

Torino, Italy

- **Google Cloud Foundation – IEO Research:** Contributed to the design and implementation of the Foundation for IEO Research. Activities included setting up the hub-and-spoke networking architecture, VPC Service Controls, centralized IAM, logging, security policies, DNS configuration and infrastructure automation using Terraform.
- **On-Premise to Cloud Migration (GCP):** Participated in the migration of workload applications from on-premises infrastructure to a GCP-based architecture. Tasks involved network provisioning, utilizing GKE (Google Kubernetes Engine) for container orchestration and Cloud SQL for managed databases. Designed and deployed a secure, scalable environment incorporating Cloud Armor (L7 protection), Identity-Aware Proxy, and inter-environment firewall rules. Successfully delivered the solution in production.
- **GCP GOSP Admin Team – Generali Group:** Took part of the GCP GOSP team, responsible for the design, administration, and governance of Generali's entire Google Cloud organization. Actively manage the GCP foundation layer and networking architecture across multiple Legal Entities. Oversee organization-wide policies, IAM, VPC Service Controls and shared network services, maintaining a compliant, scalable, and resilient cloud infrastructure aligned with enterprise standards.

CERTIFICATIONS

Professional Cloud Database Engineer Certification

Google • 04/2026 – 04/2028

Validated skills in designing, managing and troubleshooting Google Cloud database solutions, translating business and technical requirements into scalable, reliable and cost-effective data architectures.

EDUCATION

State Exam for Qualification to the Profession of Information Engineer - Section A

Politecnico di Bari e Ordine degli Ingegneri della provincia di Bari

11/2024

Bari – Italy

- Grade: Enabled

International program E+/EU
PROGRAM COUNTRIES 2023/2024

DTU (Danmarks Tekniske Universitet)

08/2023 – 08/2024 Copenaghen – Denmark

- Thesis in: Exploring Device-to-Device (D2D) Communication in Cellular Technology: 5G and Beyond.
- Authentication Service Project

Master's Degree in COMPUTER
ENGINEERING – Computer
Networks and Cloud Computing

Politecnico di Torino

09/2022 – 10/2024 Torino – Italy

- Grade: **110/110 with honors**
- Surplus Food Rescue Web Application
- Tamagotchi Simulation Project
- Transcript of Grades

Bachelor's Degree in COMPUTER
AND AUTOMATION Engineering

Politecnico di Bari

10/2019 – 07/2022 Bari – Italy

- Grade: **110/110 with honors**
- Transcript of Grades

SKILLS

GCP

IaC

Terraform

Git

Cloud Computing

Cybersecurity

Kubernetes

Docker

Microsoft 365

Network Infrastructure & DC

Professional Cloud DevOps Engineer Certification

Google • 02/2026 – 02/2028

Validated skills in CI/CD, release engineering, observability and reliability practices on Google Cloud. Knowledge applied to cloud delivery pipelines, infrastructure automation and production service operations.

Professional Cloud Network Engineer Certification

Google • 12/2025 – 12/2027

Certified expertise in designing, implementing and managing Google Cloud network infrastructures, including VPC design, hybrid connectivity, Cloud VPN, Cloud Interconnect, load balancing, DNS and security policies.

Terraform Associate

HashiCorp • 07/2025 – 07/2027

Certified in Infrastructure as Code with Terraform, with practical knowledge of module design, remote state management, reusable infrastructure patterns and automated provisioning across cloud environments.

Google Professional Cloud Architect Certification

Google • 04/2025 – 04/2027

Validated ability to design secure, scalable and reliable Google Cloud architectures, aligning technical solutions with business requirements, operational efficiency and security best practices.

Ethical Hacker & Penetration Tester

Fata Informatica • 09/2022 – Present

Training focused on vulnerability assessment, penetration testing methodologies, threat analysis and defensive security practices to identify weaknesses and reduce cybersecurity risks.

VOLUNTEERING

Volunteer - Roskilde Festival

Roskilde Festival

📅 07/2024 – 07/2024 📍 Roskilde, Denmark

Supported event operations at one of Europe's largest music festival.

Volunteer - Volontariato Torino ETS

CIVESS - Corpo Italiano Volontari
Emergenze Soccorso e Solidarietà

📅 05/2026 – Ongoing 📍 Torino, Italy
